Mr. D. armed himself and followed them to Mr. Granville Cobiln's, where they had been and robbed him also. Mr. Dickens and Mr. Coblin, with two others, started in pursuit of the robbers and came upon then next morning in a barn. They opened

fire upon it and Welch fired upon the party in return and shot Mr. D. and Mr. C. The other two men escaped unhurt. The theives made their escape. The wounded men were taken to their homes, where they both died from the effects of their wounds. Both were well known in the county, Mr. 11, being the first United States Provost Marshal the county even had, and both were good and reliable citizens. 1 udian Commissioners, from the East route for Fort Smith, arrived here this evening. NEW YORK, Aug. 17.

The following is Mr. Cyrus Field's steamship Great Eastern sailed om the Nore, off Shereness Saturday uly 15, at 12:30 o'clock, and at 2½ o'clock Monday P. M., 17th, she overhauled the Caroline that left London on the 5th inst. Caronie that left London on the 5th inst, with the shore end on board. She had been detained by bad weather. We took her in tow and arrived off Valentia at6:45 A. M. of Wednesday. As the weather was not favorable, the Caroline went into Va-

lenta harbor, and the Great Eastern to Berkhaven, Bantry Bay. Followed the next day by her majesty's steamers, Terrible and Sphyx, the twenty-seven inles of the heavy shore end were successfully laid from the Caroline, towsheressinity and from the Caronne, tow-ed by the steamer Hawk, on Saturday, the 2d, at 5% o'clock. The next afternoon a splice between the main cable and the shore end was completed, and the Great Eastern, the Terrible and Sphynx steam-ed towards New Foundland, while the Caroline and Hawk returned to Vulentia.

All went in a good manner till 2:20 A.

M., on Monday, the 24th, when a partial
toss of Insulation suddenly showed itself. Shortly after this, the speed of the ships was reduced and the cable pald out more

dowly, while tests were applied to locate the fault, which was found to be in the water some miles astern of the Great East-ern. At 8:50 A. M. the cable was transferred to the picking up apparatus and the boys began to haul in the cable. This operation was frequently suspended by want of steam in the boiler attached to the picking up apparatus, and during the day up portable boiler was connected with the former at 5 minutes past 8 o'clock In

the normer at 5 minutes past 8 o'clock in the morning. At tive minutes pas 8 o'clock next morn-ing the faulty part was brought on board and found to have been caused by a piece of iron wire, similar to that used in the jufacture of the cable, about two inch is long having been forced between the outer and through the gutta perchainto the copper wire. Ten and one-fourth miles of cable was recovered, the fault cut out, and a new splice made, the cable re-

out, and a new spice made, the cable retransferred to the paying out machine at the stern, and at 4:10 a. M. Tuesday, the 25th, all was again in perfect order and the fleet on its way to America, having been detained 37 hours and 50 minutes, at noon on Wednesdap the 25th.

The Great Eastern was 178 miles from Valcuitia and there had been paid out, including 17 miles on the shore end, 177 miles of the cable, water 1,750 fathoms, tests very good. Thursday, July 27th—the ship ran in the last 24 hours, 141 inlies, and paid out 158 miles of cable, depth of water 2,160 tathous, tests very good. Friday, July 28—distance made 155% miles; cable paid out 174 miles, water 1,950 fathoms, tests very good. More of the Recent Earthquake. HARRISDURG, August 17. on Session .- The convention re-

assembled at 4 o'clock.

The committee on permanent organization reported H. C. Johnson, of Cruwford, fron reported II. C. Johnson, of Crawford, for president, with a vice president from each senatorial district.

Mr. Jvugh, chalman of committee on resolutions, submitted a report and resolution, reposing confidence in the administration of President Johnson, and instration of President Johnson, and indorse his construction policy; or inpli-menting Gov. Curtin and Mr. Stanton. Also recommending the confiscation of property of Southern rebels. NEW YORK, Aug. 17,

The excitement arising out of the Ketch-um frauds has very much abated, and nflalrs appear to be steadily returning to their former condition. There is still a certain feeling of caution and mistrust arising from the apprehension that the effects of the falling of two such large from the system of two such large firms has yet to come. WASHINGTON, Aug. 17.

The President to-day, as usual, opened his doors to all visitors, one-third of whom were women. The growd was not as large as yesterday, twenty or thirty persons only being in the office. At 1 o'clock their business was consecutively transacted.

YESTERDAY'S NOON DISPATCHES. The Canadian Debt \$75,000,000.

Ketchum's Robberles \$500,000. Postponement of Wertz's Trial. More About the Atlantic Cable.

Mississippi State Convention.

NEW YORK, Aug. 17. The Herald's Quebec correspondent gives some rather startling facts respecting affairs in the British provinces. The Canada debt exceeds \$75,000,000, upward of three-fourths of which has been incurred during the past ten years. Political affairs are also represented to be in a very ticklish condition.

New York, Aug. 17. Hon. Preston King yesterday executed his bonds as Collector of the Port of New his bonds as Collector of the Port of New York, in the sum of \$200,000. His bonds-men are Andrew Carrigan and R. M. Illatchford, who justify in \$200,000 each. The bonds were executed by ex-Judge Betts; his honersubsequently administer-ing the oath of office to the new incum-bent, who will enter upon the duties of his office on the 1st of September next.

New York, Ang. 17.
But little additional has been developed oncerning the great defideation since resterday. Ketchum's robberies are now stimated at \$500,000, and R. Mumford, whose fallure to meet his engagements was announced several days since, has operations involve, however, a loss of nly about \$100,000, The Times' Washington special says

the irrepressible conflict has developed another phase in this city. The Washington secesh, who reside in the aristocratic locality of Fourteenth street and Massachusetts avenue, object to the colored schools established in that vicinity by foneral Royand of the Evendynania Re-General Howard, of the Freedmen's Bu-reau. They beseech him to have them re-moved, and assign, among other reasons, that it will depreciate the price of real

Wertz trial went over again to-day.

The Westz trial went over again to-day, and it may not begin for a week. It seems, after all, the prosecution is not fully ready. New evidence is constantly conting in, which may cause some changes in the charges and specifications.

The ileraid's special says all soldiers now in the tield, with the single exception of those in the military division under General Sherman, have, within a tew days, been paid up to and including the 30th of June past, and for Sherldan's department over \$15,000,000 were sent two weeks ago to the paymaster with which weeks ago to the paymaster with which to settle all demands against the Govern-

A number of citizens of Richmond have seen here for several days, with the ob-set of calling on the President with a lelegation in behalf of themselves and others concerning pardon. Yesterday the elf-instituted committee visited the White House, and were addressed by the President in a friendly way, with the inquiry as to where they were from. A number of the delegation, in a pompous' style, replied, "We are proud to say that we are from the city of flichmond." The President remarked that he did not see any occasion for pride in the fact, and, turning his back, devoted his attention to other matters. Thus ended the interview. Several parties came up to-day to reinforce the delegation, but what new movement will be attempted is not developed.

New York, Aug. 17. The comments and spectations of the English papers concerning the Atlantic cable, received by the China, are, in the absence of more definite intelligence from the Great Eastern, interesting. On all ansence of more definite intelligence from the Great Elestern, interesting. On all hands it is agreed that the injury to the cable must have occurred after it left the salip. Rough weather sufficient to have caused a breakage of the cable is our of the question, as the instruments employed at Valemia were so delicate us to record every lurch of the hig ship.
When the loss of insulation became known on board the Great Eastern, it

was supposed that those in charge of the operation would order the ship to be put back in order to under-run the wire and discover the flaw. While this operation was in progress, according to the writer in the London Times, a brisk wind or any roughness of the sea would compel the telegraph scale in the telegraph and the sea would compel the telegraph area. the telegraph people to cut the cable at The report brought by the First Fruit

inconsistent with The supposition that this was done. That supposition is supported by the fact that while it was in lat. 50, long. 89 that the insulation first began to give out, and the Great Eastern probably went some distance after this, it was in lat. 51:40, long. 38, one league nearer Vulentia, that the First Fruit found the buoy. As the First Fruit found the buoy. As to the possibility of recovering the cable, should it have been been buoyed as sug-gested, opinions differ. The London Daily News mentions, as

can be recovered from the Valentia end.
